** Supplemental services are: chronic disease self-education and management, medication therapy management, nutrition counseling, falls prevention, peer support, recovery assistance. ALA must provide or contract for, set standards for, and monitor supplemental services. For example, various providers and affiliates above might be contracted to provide supplemental services.

*** Lead Care Managers (LCMs) will be selected by clients to provide care coordination. LCMs will be employees of various providers and/or care coordination affiliates in the HN, and/or possibly provided through other means as identified by the HN (for ex., employed or under contract by ALA or BHPA).
